# IntelliCare™ Hybrid Dispenser

Smarter Design. Sustainable Care.

## A complete and intelligent hand care solution

The IntelliCare™ Hand Hygiene dispensing system is part of a complete and intelligent hand care solution designed to prevent infection, improve productivity and protect your brand reputation.

The IntelliCare™ Hybrid touchless hand care dispenser is the first one worldwide to include patented hybrid technology, enabling always-available hand hygiene. The dispensing system addresses all of your hand care needs with a versatile, modern and durable platform that is compatible with liquid, cream and foam products.

## Dispenser Features

- Patented hybrid functionality
- Low-content alert informs staff when product level is low, enabling a “never empty” function
- Robust and reliable ABS-plastic, scratch and UV-resistant body with no dirt traps make for an easy maintenance and spotless appearance
- Leading battery life and waterproof components to ensure reliable long-lasting operations with minimal maintenance requirements
- State-of-the-art dispenser design with a large window, allowing user content visibility and product identification from outside
- Simple and intuitive touch-free operation, complimented by an illuminated “Push” icon if batteries need replacing
- Dose size switch within the dispenser
- Snap-in, customizable placard and window labels for product identification, messaging and color coding
- Accessories that enable hand hygiene across application areas: drip tray and floorstand.

## Benefits

- Always-available functionality minimizes the risk of HCAs and other “never events” resulting from non-operational dispensers
- Improved work efficiencies with a quick and easy dispensing, refill and product identification
- Innovative functionality and infection-prevention features improve customer experience
- Smooth and safe user experience stimulates hand hygiene compliance and positive public health
- Kind to the environment, with an unparalleled lifecycle sustainability assessment
- Modern design allows for a smooth set-up and natural blend-in across usage environments

# IntelliCare™ Hybrid Dispenser

Smarter Design. Sustainable Care.

## Refill Bottle Features

- Fully collapsible recyclable bottle that uses up to 30% less plastic/ml than conventional bottles
- Hermetically sealed bottle with no-drip/no-clog dosing pump that ensures content is free from contamination, avoiding the risk of bacterial build-up
- Larger volume bottle that provides cost-effective hand hygiene and minimizes number of refill changes
- Key-necked plug-in bottle, for a quick, safe and easy refill process
- Unique bottle design collapsing from the back to enable full product visibility, with a <50 doses cue that informs when bottle will soon need replacing, enabling full product evacuation.

## Use Instructions

- Place palms approximately 5 cm below dispenser
- Product will be dispensed within 1 second of sensor activation
- If "PUSH" symbol is lit, use manual push pad to dispense product

Technical data	
Color	Black/White
Output	0.4mL/push 1.0mL/push
Dimensions (cm.)	28.2 (H) x 15.8 (W) x 10.1 (D)
Material	ABS (body) PP (backplate) Polyoxymethylene (hammer) polycarbonate (window)
Battery lifetime	90.000 activations* <small>*Based on normal use with liquid at low dose</small>

Description/Package Size	Product Code
